EDUCATION

Higher Secondary Education(Class-XII), Sanskrit collegiate School, Kolkata

June 2022

Elitte College of Engineering, Kolkata
B.Tech in Computer Science

Currently Pursuing

RELEVANT COURSEWORK

- Data Structures
- Algorithms
- Software Methodology
- Database Management
- Computer Architecture
- Computer Networking
- Artificial Intelligence

PROJECTS

Spotify Clone (Frontend Project using JavaScript DOM Manipulation)

- Developed a functional Spotify clone using HTML, CSS, and JavaScript without any backend or database.
- Dynamically rendered music data by accessing files directly from folders, demonstrating the capabilities of JavaScript DOM manipulation.
- Focused on creating an interactive UI and responsive layout to replicate core Spotify features like play/pause, song switching, and progress tracking.

Todo List Application (React + Redux Toolkit)

- Built a todo list app using React and Redux Toolkit to understand state management and scalable component-based design.
- Implemented features like task creation, editing, deletion.
- Gained hands-on experience in using Redux sl, reducers, and React hooks for real-time UI updates.

Civic Mate – A Friendly Companion for Civic Activities (Django, Group Project) -In progress

- Led a team of 5 members in designing and developing a Django-based web application to assist citizens in reporting and managing civic issues.
- Took ownership of the backend development, designing scalable database models with Django ORM and implementing RESTful APIs for data handling.
- Integrated secure user authentication, role-based access, and data validation to ensure reliability and privacy.
- Coordinated code reviews, task distribution, and version control with Git/GitHub, ensuring smooth collaboration and timely update.

TECHNICAL SKILLS

Languages: C, Python, Java, JavaScript

Web Development: HTML, CSS, Django

Tools & Platforms: VS Code, Git, GitHub, Debugging

Concepts: Responsive Web Design, OOPS, UI/UX Principles

COURSES

Foundations Of User Experience (UX) Design, Google(via Coursera)

August 2023

AI For Everyone, DeepLearning.AI(via Coursera)

October 2023

Responsive Web Design, University of London, Goldsmiths, University of London(via Coursera)

September 2023

Fullstack web development using Django from EuphoriaGenx
